

ITALY - AUSTRALIA SPACE SYMPOSIUM

Wednesday 28 September, 4-6 pm

Karmel Room, ANU Union, The Australian National University

On the occasion of the 11th Australian Space Science Conference, a bilateral Italy - Australia Space Symposium will be held on 28th September. The symposium will provide a forum for and act to strengthen and consolidate collaborations between Italian and Australian researchers in important sectors of space and planetary science. Participants taking part in the symposium will hail from the Italian Space Agency and the Italian National Institute of Astrophysics as well as from Australian universities and research centres.

Panelists

Roberto Orosei (Istituto Nazionale di Astrofisica, Rome)

Gian Ori (In't Resesearch School of Planetary Sciences)

Oscar Moze (Scientific Attache, Embassy of Italy)

Michele Clement (Director, Space Policy Unit, DIISR)

Russell Boyce (University of Queensland)

Iver Cairns (University of Sydney)

Trevor Ireland (Australian National University)

Kefei Zhang (RMIT University)

Moderator: **Graziella Caprarelli** (University of Technology, Sydney)

In memory of, Dr Angioletta Coradini
