

11TH AUSTRALIAN SPACE DEVELOPMENT CONFERENCE
ADELAIDE HILTON, AUSTRALIA JULY 5 - 7, 2010

EXHIBITOR SPACES

EXHIBITOR SPACES

Exhibitor spaces are available for interested companies and organisations at the conference.

Taking an exhibition space is a unique chance to showcase your company to a highly selected group of professionals from the space industry.

Your exhibition space is allocated for the full three days of the conference.

During the conference your booth is located close to the main conference auditorium. Delegates will be able to meet with you and discuss your exhibition and your company through the coffee breaks at the conference.

The exhibition space is an ideal opportunity to show detailed computer animations, promotional materials or models of your company's work.

Each exhibition space measures 3 metres by 2 metres and is supplied with a nameboard, power and lighting as well as a table and chairs. Larger or tailored booths are available, please contact us for further details.

Note that each person who plans on staffing your booth will need to register for the conference, however special reduced rates are available for exhibitors who would prefer not to attend the lunch or evening functions.

A\$2,200 PER BOOTH
